POST-1T19. Brillantes resultados

GIGA publicó esta mañana fuertes resultados 1T19. C.C. 31-Mayo a las 10am CET. Éstos fueron sensiblemente por encima de estimaciones y del presupuesto como suele ser habitual. Recordar que en resultados 1/3T, GIGA no aporta visibilidad del bottom-line de la cuenta de resultados. Se dio una fuerte expansión del top-line y EBITDA a/a. Dado el fuerte track-récord demostrado por la compañía, incrementamos nuestro precio objetivo desde 9,1 a 10EUR/acc. (+9,9%) como resultado de DCF18/22e (WACC 8%, beta 1,2, g 3%, EV/EBITDA residual 12,8x y peso del 83,2%).

Recordar que GIGA materializó dos operaciones de M&A en 2018 (ya integradas): SVT (Ene-18, España, 250 clientes -55 Datacenter-, ingresos estimados anuales 0,83mEUR) y Ability (May-18, Colombia, 92 clientes Datacenter, 1,64mEUR). Excluyendo éstas del perímetro de consolidación, los ingresos 2018 habrían crecido un +20,6% y el EBITDA algo más de +2x.

Source: Gigas Hosting & GVC Gaesco Beka

➤ **Fuerte evolución de operativa por encima de nuestras expectativas.** El mercado IaaS (Infrastructure as a Service) y, en particular los segmentos en los que GIGA está presente, crecieron un +31,6% a/a en 2018 según Gartner (Sept-2018) vs. algo inferior ritmo de crecimiento de la empresa a perímetro constante excluyendo M&A (+23,1% a/a top-line 1T19). En cambio, considerando las adquisiciones, GIGA superó la expansión del mercado sustancialmente (+42,3% a/a). Con todo, GIGA continuó haciendo valer sus ventajas competitivas: (posicionamiento geográfico centrado en España y LatAm), licencias con terceros (especialmente SAP HANA completamente homologado), datacenters TIER IV, asesoramiento a empresas en proceso de migración a la nube, servicio de atención técnica con ingenieros 24h/7d,...

➤ **La expansión de la base de clientes fue especialmente relevante en su producto state-of-the-art Cloud Datacenter** (+26,3% a/a hasta alcanzar los 753 clientes superando holgadamente nuestras estimaciones). La estrategia de GIGA para por incrementar su posicionamiento en Cloud Datacenter tanto vía orgánica como mediante M&A como el ejecutado con SVT y Ability. En cuanto a VPS, se dio una erosión (-6,9% a/a) dada la mayor competencia regida más por la componente precio.

- **Sólido crecimiento del top-line.** La facturación a clientes se incrementó un +42,3% a/a y un +34,2% en términos de ingresos netos. Éstos no se vieron penalizados por la mayor aplicación de descuentos (+30% a/a con el objetivo principalmente de retener clientes y aumentar su vida media) que crecieron a un menor ritmo que las ventas. **GIGA volvió a no decepcionar de modo que, tanto la facturación bruta como los ingresos netos, se situaron un +9,8% y +1,3% por encima del presupuesto fijado por la compañía (también superaron nuestras estimaciones).**
- **También el EBITDA por encima de presupuesto (+27,6% vs. 0,5mEUR fijados por GIGA). En 2018, el EBITDA prácticamente se triplicó (+190,1% a/a aun teniendo en cuenta mayores costes de conectividad por la incorporación de datacenters en Madrid, Barcelona y Bogotá junto con la adición de Ability/SVT con menores márgenes que GIGA) considerando los 0,56mEUR obtenidos en 2017.**

En el 1T19, la compañía más que duplicó los registros de EBITDA vistos un año antes (0,3m 1T18). El EBITDA de 0,64mEUR obtenido en el 1T19 estuvo sensiblemente por encima de presupuesto gracias a la mayor contribución de ingresos pero también a la optimización de costes. En el plano negativo (aunque entra dentro de nuestras expectativas), se dio una contracción de márgenes brutos (-2,1p.p. a/a) por el efecto de cambio de perímetro de consolidación que supuso la integración del M&A (incorporación de dos datacenters adicionales en Barcelona y Bogotá) y su efecto dilutivo. A ello se unió la creciente inclusión de software de terceros en GIGA para apoyar su actual oferta comercial.

Gracias a que el opex se mantuvo bajo control frente al presupuesto y teniendo en cuenta la adición de costes de Ability/SVT, se produjo una fuerte expansión de M. EBITDA hasta alcanzar el 25,8% (vs. 16,7% 1T18 vs. 20,5% presupuesta vs. 23,9% 2019e vs. 29% en término residual de nuestro DCF).

- **Se mantiene la estimación de la compañía en términos de capex19 de 1,02mEUR vs. 1,07mEUR estimado por nosotros (capex/ventas19e 9,8% vs. 28,7% del año pasado explicado mayoritariamente por el M&A ejecutado).** GIGA comunicó que está estudiando la apertura de un nuevo datacenter en México; lo que por el momento no está incluido en nuestras proyecciones ni en el presupuesto de la compañía.
- **Deuda bajo control (1,47mEUR, 0,6x DN/EBITDA excluyendo convertible de 2,5mEUR in-the-money a final del ejercicio).** Se incluyó la deuda vinculada a SVT/Ability, entidades de crédito, contratos de arrendamiento financiero e instituciones públicas por proyectos de I+D.
- **Ambicioso Presupuesto 2019 (tabla adjunta, ya reportado el pasado 15-Ene-2019).** GIGA prevé alcanzar una **facturación a cliente o ventas brutas de 11,83mEUR (vs. 11,82mEUR est)** lo que supone un crecimiento del +16,5% a/a. En cuanto a ventas netas, la empresa espera que alcancen los 10,57mEUR (+21,7% a/a) vs. 10,01mEUR est. Se espera una reducción de margen bruto en el presente ejercicio (77,2% fijado por GIGA vs. 78,3% 2018) por la consolidación año completo de Ability y mayores costes operativos por incremento de número de datacenters y pago de licencias a terceros (VMWare Cloud y otros). Por el lado de **EBITDA, GIGA espera registrar 2,55mEUR en 2019e (vs. 2,45mEUR contemplado en nuestras proyecciones).**

Source: Gigas Hosting

En conclusión, resultados (como siempre) por encima de presupuesto y de nuestras estimaciones con elevado crecimiento de clientes datacenter, ARPU, top-line y EBITDA. GIGA centró parte de sus esfuerzos a integrar SVT/Ability en 2018 junto con el reforzamiento de sus equipos comerciales en Perú y México.

A pesar de su limitado tamaño (capitalización 28mEUR) consideramos que GIGA como una empresa de alta calidad en la cual posicionarse para el largo plazo por la macrotendencia de crecimiento del cloud computing, bajo endeudamiento y su brillante gestión.

No descartamos que la compañía materialice una adquisición de mayor calado en 2019 mediante una combinación de equity y deuda.

This chart shows GVC Gaesco Beka continuing coverage of this stock; the current analyst may or may not have covered it over the entire period. Current analyst: Eduardo Garcia Arguelles (since 22/01/2019)

ESN Recommendation System

The ESN Recommendation System is **Absolute**. It means that each stock is rated on the basis of a **total return**, measured by the upside potential (including dividends and capital reimbursement) over a **12 month time horizon**.

The ESN spectrum of recommendations (or ratings) for each stock comprises 5 categories: **Buy (B)**, **Accumulate (A)**, **Neutral (N)**, **Reduce (R)** and **Sell (S)**.

Furthermore, in specific cases and for a limited period of time, the analysts are allowed to rate the stocks as **Rating Suspended (RS)** or **Not Rated (NR)**, as explained below.

Meaning of each recommendation or rating:

- **Buy:** the stock is expected to generate total return of **over 15%** during the next 12 months time horizon
- **Accumulate:** the stock is expected to generate total return of **5% to 15%** during the next 12 months time horizon
- **Neutral:** the stock is expected to generate total return of **-5% to +5%** during the next 12 months time horizon
- **Reduce:** the stock is expected to generate total return of **-5% to -15%** during the next 12 months time horizon
- **Sell:** the stock is expected to generate total return **under -15%** during the next 12 months time horizon
- **Rating Suspended:** the rating is suspended due to a change of analyst covering the stock or a capital operation (take-over bid, SPO, ...) where the issuer of the document (a partner of ESN) or a related party of the issuer is or could be involved
- **Not Rated:** there is no rating for a company being floated (IPO) by the issuer of the document (a partner of ESN) or a related party of the issuer

Certain flexibility on the limits of total return bands is permitted especially during higher phases of volatility on the markets

Disclaimer:

These reports have been prepared and issued by the Members of European Securities Network LLP ("ESN"). ESN, its Members and their affiliates (and any director, officer or employee thereof), are neither liable for the proper and complete transmission of these reports nor for any delay in their receipt. Any unauthorised use, disclosure, copying, distribution, or taking of any action in reliance on these reports is strictly prohibited. The views and expressions in the reports are expressions of opinion and are given in good faith, but are subject to change without notice. These reports may not be reproduced in whole or in part or passed to third parties without permission. The information herein was obtained from various sources. ESN, its Members and their affiliates (and any director, officer or employee thereof) do not guarantee their accuracy or completeness, and neither ESN, nor its Members, nor its Members' affiliates (nor any director, officer or employee thereof) shall be liable in respect of any errors or omissions or for any losses or consequential losses arising from such errors or omissions. Neither the information contained in these reports nor any opinion expressed constitutes an offer, or an invitation to make an offer, to buy or sell any securities or any options, futures or other derivatives related to such securities ('related investments'). These reports are prepared for the clients of the Members of ESN only. They do not have regard to the specific investment objectives, financial situation and the particular needs of any specific person who may receive any of these reports. Investors should seek financial advice regarding the appropriateness of investing in any securities or investment strategies discussed or recommended in these reports and should understand that statements regarding future prospects may not be realised. Investors should note that income from such securities, if any, may fluctuate and that each security's price or value may rise or fall. Accordingly, investors may receive back less than originally invested. Past performance is not necessarily a guide to future performance. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related investment mentioned in these reports. In addition, investors in securities such as ADRs, whose value are influenced by the currency of the underlying security, effectively assume currency risk. ESN, its Members and their affiliates may submit a pre-publication draft (without mentioning neither the recommendation nor the target price/fair value) of its reports for review to the Investor Relations Department of the issuer forming the subject of the report, solely for the purpose of correcting any inadvertent material inaccuracies. Like all members employees, analysts receive compensation that is impacted by overall firm profitability. For further details about the analyst certification, the specific risks of the company and about the valuation methods used to determine the price targets included in this report/note, please refer to the specific disclaimer pages prepared by the ESN Members. In the case of a short note please refer to the latest relevant published research on single stock or contact the analyst named on the front of the report/note for detailed information on the valuation methods, earning estimates and risks. A full description of all the organisational and administrative measures taken by the Members of ESN to manage interest and conflicts of interest are available on the website of the Members or in the local disclaimer of the Members or contacting directly the Members. Research is available through the ESN Members sales representative. ESN will provide periodic updates on companies or sectors based on company-specific developments or announcements, market conditions or any other publicly available information. Unless agreed in writing with an ESN Member, this research is intended solely for internal use by the recipient. Neither this document nor any copy of it may be taken or transmitted into Australia, Canada or Japan or distributed, directly or indirectly, in Australia, Canada or Japan or to any resident thereof. This document is for distribution in the U.K. Only to persons who have professional experience in matters relating to investments and fall within article 19(5) of the financial services and markets act 2000 (financial promotion) order 2005 (the "order") or (ii) are persons falling within article 49(2)(a) to (d) of the order, namely high net worth companies, unincorporated associations etc. (all such persons together being referred to as "relevant persons"). This document must not be acted on or relied upon by persons who are not relevant persons. Any investment or investment activity to which this document relates is available only to relevant persons and will be engaged in only with relevant persons. The distribution of this document in other jurisdictions or to residents of other jurisdictions may also be restricted by law, and persons into whose possession this document comes should inform themselves about, and observe, any such restrictions. By accepting this report you agree to be bound by the foregoing instructions. You shall indemnify ESN, its Members and their affiliates (and any director, officer or employee thereof) against any damages, claims, losses, and detriments resulting from or in connection with the unauthorized use of this document. For disclosure upon "conflicts of interest" on the companies under coverage by all the ESN Members, on the "interests" and "conflicts" of the analysts and on each "company recommendation history", please visit the ESN website (http://www.esnpartnership.eu/research_and_database_access/insite) or refer to the local disclaimer of the Members, or contact directly the Members:
