16 FEBRUARY 2018

6th annual Cloud Awards, described as the Oscars of the industry

Gigas recognised as the Best Cloud Hosting Provider for the second year running

Gigas (GIGA.MAB) has been recognised as the Best Cloud Hosting Provider, for the second year running, in the Cloud Awards 2017-18, the latest edition of the awards The Cloud Awards, described as the Oscars of the industry (www.cloud-awards.com), have been celebrating excellence and innovation in the scope of cloud computing for six years. The category won by Gigas recognises aspects such as process security, comprehensive approach to scalability and service excellence.

Larry Johnson, founder of the Cloud Awards, said *“the level of the more than 300 submissions received from around the world in this 6th edition has been overwhelming”*; which he said *“has made arriving at the list of ultimate winners in the various categories difficult. The winners showed unique strengths and the ever-important commitment to innovation while leveraging cloud technologies”*.

For his part, Gigas Chief Executive Officer Diego Cabezudo expressed his appreciation and pride, saying that *“to be chosen as the world’s best cloud hosting provider for the second time is a huge honour. It encourages us to continue working hard to deliver excellence and the best service to our customers”*.

About Gigas.com

Gigas is a Spanish company, listed on the Mercado Alternativo Bursátil (Spanish Alternative Equity Market or MAB) since 2015 (GIGA.MAB), which specialises in cloud computing services. Incorporated in 2011, it has become one of the world’s leader providers in the sector, according to Gartner’s “Magic Quadrant for Cloud Infrastructure as a Service” report. Gigas, which offers cloud computing solutions, stands out for its cutting-edge technology and exceptional technical support. With data centers in Madrid, Barcelona, Miami and Santiago de Chile, the company has offices in Spain, Colombia, Chile, Peru, Miami, Panama and Mexico. The company is the only public cloud services provider in Spain for European Commission institutions after winning the public tender held in 2015. Its platform offers a high level of security and is certified in accordance with international standards, such as ISO 27001 and PCI DSS Level 1.
