
OTHER ADVANTAGES

- Monthly “pay per use”. No fixed-term contract.
- High availability and complete disaster recovery.
- Real time application administration and data protection.
- Allows an entire server with low RTOs (Recovery Time Objective) to be switched.
- Real time synchronization to meet the most demanding RPOs (Recovery Point Objective).
- Replication is efficient with regard to bandwidth use, minimizing the cost of remote data replication.
- D&R clusters can be implemented without geographical limitations.
- Risk of data loss is minimized.
- Customized, turnkey, comprehensive service.

CLIENT EQUIPMENT REPLICATION REQUIREMENTS

Windows requirements:

- Windows Server 2008 Standard, Enterprise and Datacenter (32 - bit / 64 - bit)
- Windows Server 2012 Foundation, Essentials, Standard, Datacenter Editions

Linux requirements:

- Red Hat Enterprise Linux 5.8 or above, CentOS
- Oracle Enterprise Linux 5 and 6
- Ubuntu 10.04 and 12.04 LTS
- SUSE Linux Enterprise 10 and 11
- File systems EXT2-4

Hyper-V requirements:

- Microsoft .NET 3.5 SP1
- VM stored on a standard NTFS file system
- TCP / IP with a static IP address or DHCP address reserved for Hyper-V hosts

VMWare requirements:

- VMware VirtualCenter 2.x or later
- VMware VirtualCenter 3.x or later
- VMware VirtualCenter 5.0.x or later
